

Chugai Pharmabody Research Pte. Ltd. ("CPR") was established in Singapore as a wholly-owned subsidiary of Chugai Pharmaceutical Co., Ltd (Chugai), a member of Roche group, in January 2012 and started operations on July 2, 2012. Located at Biopolis in **Singapore**, it aims to generate new antibody drugs based on Chugai's proprietary antibody engineering technologies, such as **recycling antibody[®]**, **sweeping antibody[®]**, bispecific antibody, various Fc engineered antibodies, and other new antibody engineering technologies that are under development.

We would like to invite highly motivated individual/s, especially those who would like to work in an industry to join us for the following position:

Research Scientist (LO UNIT)

Job scope:

CPR is seeking for a scientist with expertise in protein engineering.

Requirements:

The applicant should be highly skilled in at least one of the following areas:

- Protein and/or antibody engineering and optimization, including but not limited to rational or random mutagenesis approach.
- Structure biology, and the use of protein visualization software.
- Molecular and cell biology for protein expression, purification, and analysis.
- Experience/knowledge on high-throughput system, automation, and/or general scripting language will be considered plus.

The applicant must have completed and be awarded with a relevant **Ph.D. degree** in Science or related field (not in the process of achieving it). In addition, the successful candidates must be able to demonstrate technical expertise in areas which may include molecular biology, cell biology, protein chemistry and protein engineering as evidenced by projects, presentations, or peer-reviewed scientific publications.

Scientists with strong passion in medical science for creating and delivering innovative drugs to society which leads to saving patients suffering from unmet medical needs are highly desired. Familiarity or having prior work experience in antibody drug discovery work will be a plus, although not absolutely necessary. You should also possess good command of spoken and written English, excellent organizational and communication skills, team player mindset, as well as the ability to perform multi-task.

Interested applicants are invited to email their detailed resume, as well as their qualifications, availability, current and expected salary to: recruitment@chugai-pharmabody.com
